

Economics, Social and Family (ESF)

Advantages of Notre-Dame high school

- Group work.
- Individualized follow-up.
- A welcome adapted to somebody's needs.

A network of partners

In association with both economic and social actors, and with professionals concerned about a good welcome for the students in internship and professional action. These relations allow a quick professional integration for many students

An effective preparation to the exam and what comes after

- Regular mock exams.
- Professional overview: developing autonomy, responsibilities, means of creativity, time management...
- In view of continuing studies: give 120 ECTS credits as part of the LMD plan.
A success rate above the academic average and convincing results in terms of professional integration and higher studies.
